SSI...

is a training, leadership and mentoring organization recognizing the need for quality training and services that are both time and cost effective. Working with Fortune 500 organizations, we help develop “successful strategies” for increasing their business while decreasing overall costs.

ADVANCED PROJECT MANAGEMENT (APM)...

provides project management concepts and techniques essential to successfully identifying, meeting and exceeding corporate project goals and objectives in a leadership role. Fully aligned with PMI® processes and methodologies, participants are exposed to advanced applications such as Microsoft Project.

APM features the **VIRTUAL LEADER SIMULATION**

This award winning program enables managers and students to become immediately more effective and productive in leading teams and working with others in a simulated environment.

APM also features Web-Ex follow up sessions to measure your application and online mentoring for those needing help on their real world projects, all **FREE OF CHARGE!** This ensures knowledge transfer back on the job!

For a **FREE ONLINE DEMO** of our simulation or additional information on our APM Course, contact us today at **877-390-3057** or email us at **info@ssi-learn.com**.
