

# Hybrid Digital and LED Menu Boards

A high-tech look without the high price tag.

Want the look and feel of digital menu boards without incurring the high price tag?

Our Hybrid Menu Board System features a **Digital Menu Board solution - paired with VGS's Flat Panel LED's on either side** - creating an economical way to visually engage your customers.

VGS

## Samsung ED40B Digital Monitor

Running Simplicity™ - our digital menu board solution.

**4 Flat Panel LED's**  
With MagaFrame™ technology  
to easily update messaging  
as often as necessary.

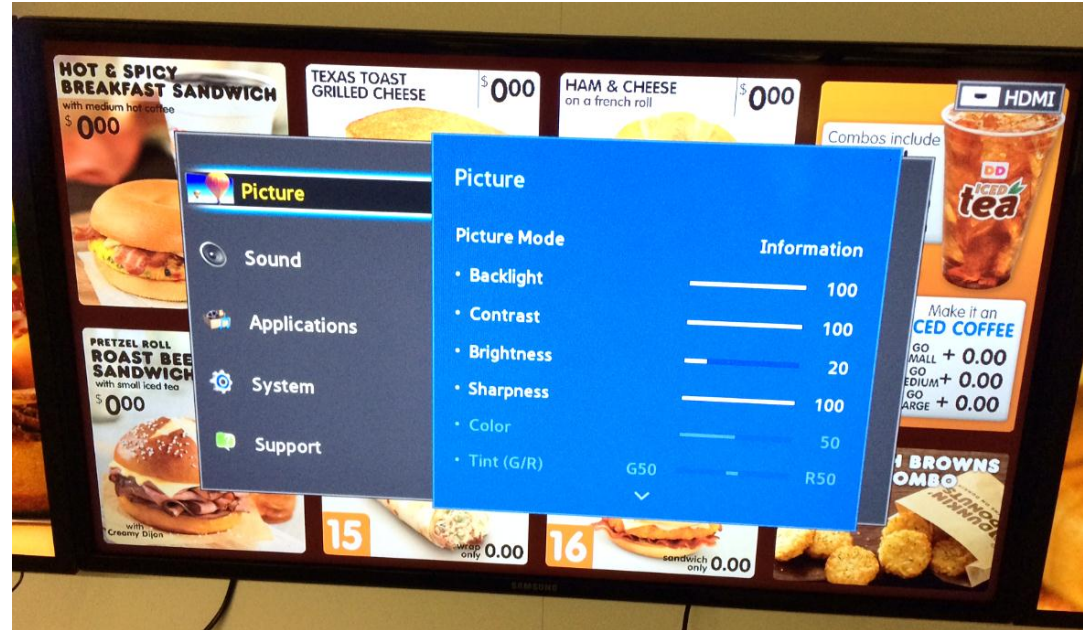

## Creating a seamless appearance

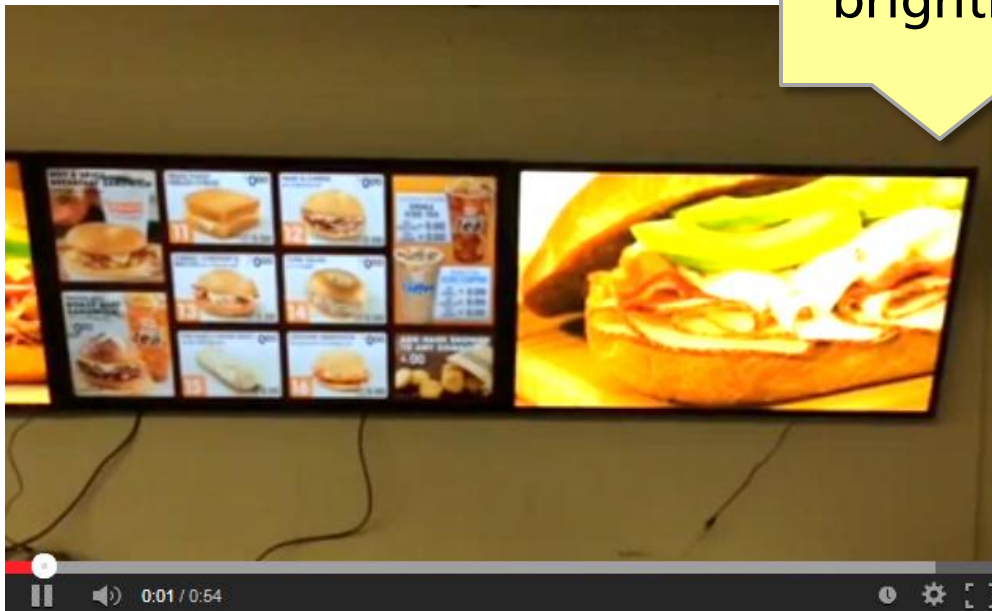

By optimizing the brightness level, we were able to eliminate the “washed-out” look of the LCD monitor.

This creates a crisp, seamless relationship between the LCD and LED panels.

Check out this video on YouTube to see how we achieved optimal brightness.
