

4 Easy Steps for Manual Automation

4.50 Square Quick Lock Pot

1 Empty your box of 4.50 Square Quick Lock Pots onto a work surface so the bottoms of the pots face the sky. Remove the box.

2 Grab the appropriate Quick Lock tray (bottom up) and firmly push against the bottom of the pots until you feel a "snap".

3 With two hands, lift off the tray and all the pots will be attached - ready for filling with soil and plants. Repeat as necessary.

Fill pots quickly and easily

4 Lay tray/pot combinations next to each other and pour potting material over the top. Smooth out excess for quick filling.
